

You will be able to do most of the editing in the simple view.

The advanced view allow you to go into the details.

Styles edited in OMB can also be played on Yamaha keyboards like the Tyros.

Select the variation and the track that you want to edit. All the parameters will be displayed together with the MIDI events in the variation.

To create a new style from a MIDI file press the "Style Wizard" button.

StyleWizard - Lime juice tub.mid

Variation	From	Len	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	Transpos.	Effect	Vel.	Rep.

Fill In AA	<input type="button" value="Play"/>	20	1	13	14							10	11	12	16	15			Chord	Fill	85	
Fill In BB	<input type="button" value="Play"/>	20	1	13	14							10	11	12	16	15			Chord	Fill	100	
Fill In CC	<input type="button" value="Play"/>	20	1	13	14							10	11	12	16	15			Chord	Fill	120	
Fill In DD	<input type="button" value="Play"/>	20	1	13	14							10	11	12	16	15			Chord	Fill	150	
Intro A	<input type="button" value="Play"/>	20	1	13	14							10	11	12	16	15			Chord	FadeIn	85	3
Intro B	<input type="button" value="Play"/>	20	1	13	14							10	11	12	16	15			Chord	FadeIn	100	3
Intro C	<input type="button" value="Play"/>	20	1	13	14							10	11	12	16	15			Chord	FadeIn	120	3
Ending A	<input type="button" value="Play"/>	20	1	13	14							10	11	12	16	15			Chord	FadeOut	85	3
Ending B	<input type="button" value="Play"/>	20	1	13	14							10	11	12	16	15			Chord	FadeOut	100	3
Ending C	<input type="button" value="Play"/>	20	1	13	14							10	11	12	16	15			Chord	FadeOut	120	3
Fill In AB	<input type="button" value="Play"/>																		Chord	None	100	
Fill In BA	<input type="button" value="Play"/>																		Chord	None	100	

OK Cancel Save Template

You will first be asked to select a MIDI file and then the Wizard screen will appear with all the parameters already filled with suitable defaults. Accept the defaults or experiment with others settings. Press OK and your style will be generated and is ready to play.
